

Sand and Recoat Tool

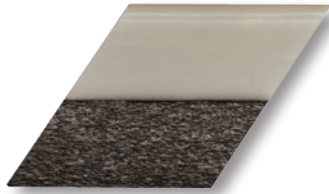

The Diamabrush By Malish Sand and Recoat Tool

Removes Deep Scratches and Embedded Dirt in One Easy Step

The Diamabrush By Malish Sand and Recoat Tool results in a perfect profile for superior coating adhesion. Ideal for epoxy and urethane floors, the patented Diamabrush By Malish diamond abrasive technology prevents caramelizing or clogging of the tool. The Sand and Recoat Tool can be used wet or dry and maximizes efficiency by preparing and cleaning the surface in one simple step. Capable of lasting for up to 100,000 square feet, the Diamabrush By Malish Sand and Recoat Tool, like all Diamabrush By Malish tools, can be refurbished using replacement blades and **can be mounted to any standard floor buffer or auto-scrubber.**

The Following Multi-Directional Polymer Tools Can Be Used For Sand and Recoat

911201220	12" Polymer Tool 100 Grit (Black)
911301220	13" Polymer Tool 100 Grit (Black)
911401220	14" Polymer Tool 100 Grit (Black)
911501220	15" Polymer Tool 100 Grit (Black)
911601220	16" Polymer Tool 100 Grit (Black)
911701220	17" Polymer Tool 100 Grit (Black)
911801220	18" Polymer Tool 100 Grit (Black)
911901220	19" Polymer Tool 100 Grit (Black)
912001220	20" Polymer Tool 100 Grit (Black)

May be covered by one or more patents including U.S. Patent Nos. 7,690,970 and 7,081,047; US and Foreign Patents Pending
