Brush Descriptions

- Bassine Brush** Natural Fiber (**Dark Brown**)
Recommended for light duty general cleaning, acid etching
- Nylon Brush** Nylon (**Black**)
Recommended for general cleaning & scrubbing vinyl floors, ceramic tile & concrete floors
- Dyna-Scrub Brush** Nylon impregnated w/500 Grit silicon carbide, fine bristle, dense fill (**Light Blue**)
Recommended for general scrubbing, vinyl tile, ceramic tile, epoxy floors, urethane finish, uneven concrete floors
- PowerScrub Brush** Nylon impregnated w/120 grit silicon carbide, coarse bristle (**Rust**)
Recommended for Moderate aggressive scrubbing on tile and concrete floors
- Poly-Grit Brush** Nylon impregnated w/80 grit silicon carbide, coarse bristle (**Green**)
Recommended for aggressive stripping and scrubbing of tile floors, unfinished concrete floors
- Strata-Grit Brush** Nylon Impregnated w/46 grit silicon carbide, coarse bristle (**Dark Blue**)
Recommended for Heavy duty stripping/scrubbing unfinished concrete

*All pad holders require pads. Minuteman does not provide pads.
Refer to the chart below to match the color of the pad to the desired performance.*

- Scrub-Grit** *A Nylon filament with silicon carbide grit for more aggressive scrubbing of floors and grout.
Great for medium and deep scrubbing of resilient floors, terrazzo, quarry tile and concrete brick.
Recommended by manufacturers for effectively cleaning non-slip floors.*

<u>Pad Color</u>	<u>Used For</u>
Synthetic Neutral	Polishing; optimum performance when used on a burnisher of 2000 rpm's or greater.
Black	Stripping and thorough scrubbing; the most aggressive of pads.
Green	Scrubbing and general cleaning on a conventional floor machine.
Tan	Polishing or spray-buffing; for use with burnisher - not to exceed 1500 rpm's.
White	Polishing, most appropriate with a conventional floor machine up to 300 rpm's.
Red	Spray buffing; used only with a floor machine up to 1000 rpm's.
Blue	Scrubbing and general cleaning on a conventional floor machine.

All pad holders require pads. Minuteman does not provide pads.

Refer to the chart below to match the color of the pad to the desired performance.

Pad Color Used For:

Synthetic Neutral - Polishing; optimum performance when used on a burnisher of 2000 rpm's or greater.

Black - Stripping and thorough scrubbing; the most aggressive of pads.

Green - Scrubbing and general cleaning on a conventional floor machine.

Tan - Polishing or spray-buffing; for use with burnisher - not to exceed 1500 rpm's.

White - Polishing, most appropriate with a conventional floor machine up to 300 rpm's.

Red - Spray buffing; used only with a floor machine up to 1000 rpm's.

Blue - Scrubbing and general cleaning on a conventional floor machine.
