

TREATMENT OPTIONS

Depending on the severity of the odor and the size of the area being treated, different Vaportek products may be appropriate. The following brief descriptions provide basic product guidelines that may help in the proper selection and application:

Optimum 4000

Designed for constant deodorization, the electric unit is designed to treat areas up to 20,000 cu. ft. Adjustable dial on front of machine allows precise control of odor-neutralizing dry vapor. Virtually silent. Replaceable cartridges last up to 120 days and are available in various fragrances; Classic Neutral recommended for most effective deodorization.

Vaportronic

Battery-operated cabinet treats areas up to 10,000 cu. ft. On/off switch, adjustable pulsing fan. Use from 1-5 EZ-Disks; disks available in several fragrances and are effective up to 30 days.

Heavy-Duty Standalone Cartridge

Non-electric; simply rotate adjustable end caps to control air flow. Designed specifically for use in HVAC systems; also recommended for use with high-velocity blowers and fans. Capable of treating areas up to 20,000 cu. ft. Lasts up to 90 days, depending on air flow, end-cap adjustment and other conditions. Available in 3X Industrial and S.O.S. (Smoke Odor Solution) formulations.

Restorator

Durable, compact unit designed for fast, permanent deodorization. On/off switch. Replaceable cartridges rated at 270 hours of service; available in 3X Industrial and S.O.S. formulations. UL listed. Treats areas up to 20,000 cu. ft.

VaporShark

Popular, versatile electric unit is capable of treating areas up to 50,000 cu. ft. Uses from 1-5 replaceable membranes; membranes available in 3X Industrial and S.O.S. Durable aluminum housing and powerful internal fan. CSA/CUL approved. Replaceable membranes rated at 270 hours of service.

VAPORTEK®

Providing ideal solutions for:

- ✓ Hydroponic gardeners and hobbyists
- ✓ Traditional greenhouse/indoor growers
- ✓ Medical marijuana growers, dispensaries and patients
- ✓ Cigar/smoke shops
- ✓ Landlords/tenants
- ✓ Property/facilities maintenance
- ✓ Condo/apartment managers...and more!

VAPORTEK...Green Before There Was 'Green'

Since 1979, Vaportek has built on a strong foundation by adapting its *environmentally preferable*

technology to versatile delivery systems and adding complementary liquid products that now combine to provide preferred air treatment for a variety of markets — including disaster restoration, medical, hospitality, athletic, automotive, pet, janitorial and more. By pairing Vaportek's liquids and dry vapor systems, maximum deodorization results can be achieved!

Vaportek's dry vapor systems utilize natural essential oils to neutralize unpleasant smells related to indoor growing settings, without upsetting the ecological balance or harming the environment.

The ease of use, safety, effectiveness and cost savings of these proven products make them the *preferred choice* when evaluating options for the elimination of hydroponic and grow odors and other difficult malodor challenges.

Vaportek has a mission to responsibly serve its customers, employees and the environment. Through dynamic product innovation, environmental awareness and dedication to service, Vaportek is committed to continue building on its reputation as a leader in air treatment technology.

SIMPLE SOLUTIONS FOR TOUGH ODORS!

Vaportek odor-control systems provide a safe, effective **ALTERNATIVE** to ozone. They are **not** recommended for use **with** ozone-generating equipment.
